City Directory Don'ts

DON'T put your Directory in an out-of-the-way place, but keep it where your customers can see and use it without stopping someone to find it.

* * *

DON'T think that a Directory is paying for itself unless you use it, any more than an idle clerk can make you money.

* * *

DON'T look mad when a customer asks to look at your Directory.

* * *

DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow it again, and if all were borrowers, when would the next Directory be published?

* * *

DON'T forget that an up-to-date city must have a Directory; and a merchant that has no Directory is what?

* * *

DON'T forget that a Directory borrower today will forget to return it tomorrow and you will call him what?

* * *

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for.

INTRODUCTION AND GENERAL INDEX

R. L. POLK & CO., INC., publishers of more than 850 city, county, state and national Directories, present to subscribers and the general public, this, the 1959 edition of the Hudson City Directory, which also includes Claverack and Stottville.

Confidence in the growth of Hudson's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Hudson to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Hudson Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:

I. THE MISCELLANEOUS DEPARTMENT, the first major department printed on white paper, presents lists of City, County, State and Federal officials, statistical and historical reviews and manufacturing, trade and civic surveys.

II. THE YELLOW PAGES constitute the second major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Hudson, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

III. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns of Hudson is the third major department printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation, address and telephone number of each adult resident of Hudson, and the name, official personnel, nature and address of each firm and corporation in the city. A similar list for Claverack and Stottville is found after the Hudson section.

IV. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, the fourth major department, is printed on green paper. In this section the numbered streets are arranged in numerical order followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes, the designation of the population of each house, and the designation of homes and places of business having telephones.

V. THE NUMERICAL TELEPHONE DIRECTORY, the fifth major department, is printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Hudson and vicinity. There are more than 500 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which R. L. Polk & Co., Inc. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Historic Hudson

The third oldest city in the state, losing by one vote becoming the capital of New York state, Hudson was named after Henry Hudson who landed at this site on "de Halve-Maan" ("the Half Moon"), Sept. 16, 1609. One of the records in the log-book of the vessel is very quaint and simple—"The lands are pleasant with Grasse and Flowers, and goodly Trees as ever we have seene, and very sweet smells come from them." As the region has always abounded with sweet clover and September is the month of fragrance, we can easily understand why this portion of the river should have suggested to the navigators the name of Clover Reach or Klaver Rack, whence the Claverack of today. The settlers at Claverack and surrounding territory immediately established a river-landing, which later became Hudson, and the place was known then as Claverack Landing.

In 1783 a committee of merchants from New Bedford and Nantucket, after perusing the Hudson River for a favorable site, selected Claverack Landing to start a commercial settlement. Having completed their purchase, they proceeded to lay out streets, and two years later, on April 22, 1785, the City of Hudson was given its Charter by the State. Hudson celebrated its sesquicentennial in 1935 with a glorious week of impressive events. Hudson was the third city to be incorporated in the state, the first to be chartered after the signing of the Declaration of Independence, and thus was the first American city; it was the third port of entry; and, when on March 6, 1793, the Bank of Columbia was chartered, it contained the third bank established in the state.

Hudson then became the center of great commerce, with ship-building, from the beginning, a leading industry. Hudson was also famous as a whaling port. Among the early industries was the C. H. Evans Co., Evans' Ale, founded in 1786, and one of the first breweries in the country.

Population

The population of Hudson proper is 11,442, that is, inside the old corporate lines, for just over the city lines are another approximate 6,000 persons, for a total population of over 17,000. As the county seat, Hudson is the center for all of Columbia County, population 43,048 (1950 Census.)

Location

Hudson "In the State that has everything", is situated at a strategic point, for residence and industry, on the east bank of the Hudson River. It overlooks the Hudson River, with a beautiful view of the Catskill Mountains, only several miles away. It is 115 miles north of New York City; 42 miles from Poughkeepsie; 32 miles south of Albany; 38 miles west of Pittsfield, Mass.

Hudson enjoys the annual mean temperature of 46.2 degrees. It is County Seat for Columbia County, recognized by writers and artists as one of the most beautiful counties in the United States.

Government

The form of government is mayor and common council. The city has one of the finest volunteer fire departments in the state, and an adequate police department. There are 18 acres of well kept parks, with playgrounds and wading pool under capable supervision. The City operates on a "pay as you go" basis and has reduced its bonded indebtedness to the low figure of \$261,222.50. Tax rate: City, General \$28.80, Education \$28.41; County \$22.54; all on basis of \$1,000 of assessed valuation. Property valuation: \$10,006,110.60, with combined city, county and school tax rate of \$76.25 per \$1,000.

IX

Industries

Located at one of the finest spots in the Hudson River valley, Hudson's industrial development has gone forward in many and varied lines. It is in the heart of a great agricultural county, and lower living costs—in fact, in one of the finest agricultural and fruit sections of the Empire State—not to mention the number of other diversified industries within the county. There are 25 manufacturing plants, many nationally-known, engaged in producing cement in 2 of the largest plants in the world, elevating and conveying machinery, tools, power presses, refrigerator cases, wool and knit goods famous in the country at large, silk cloth, an international brand of ginger ale, matches, insulation, felt, auto parts, rugs, sweaters, dresses, hand bags, boxes, glue, strip fly paper, and canned goods, warp knitting, industrial goggles, cold storage.

The Chamber of Commerce, about 20 years ago, developed the Industrial Tract, and located several of Hudson's important industries thereon. Acreage is still available, equipped with railroad siding, other sites ideal for manufacturing purposes.

Business

The shopping district is about three-quarters of a mile long, with a retail trading area comprising all of Columbia County, extending north, 15 miles; south, 13 miles; east, 21 miles. The stores along the main stem are progressive and up-to-date.

According to an investigation sponsored by the Social Science Research Council, Hudson is in the so-called "Blue" class, or next to "Purple," which is the highest standard of living. Hudson is, therefore, above "Green," the national average.

Transportation

Hudson is fortunate in being served by many transportation companies, including the main line of the New York Central Railroad, and the Boston & Albany Railroad; buses—the Hendrick Hudson Bus Line provides local bus service; taxi rates are reasonable.

The famous Rip Van Winkle Bridge, between Hudson and Catskill, 1 mile long, connects the tourist traffic of the nation to and from the Catskills, Berkshires, Saratoga, Lake George and the Adirondacks, with New York City and centers of all New England.

Hudson is located on the main highway, Route No. 9, from New York to Albany, with first-class roads branching out in all directions, making possible daily delivery by trucks to near and distant important markets.

Banks

Three commercial and 1 savings, also a savings and loan association.

Newspapers

One Daily newspaper, the "Hudson Register-Star" with roots going deep in the past, has wide circulation.

Churches

Nineteen churches minister to the spiritual needs.

Education

The early days emphasized schools and educational values, and the modern Hudson has led out with no uncertain step so that today it ranks among the highest in the state in scholarship, with six public schools, including one senior high and one junior high. There is also one parochial school. There are 2,136 pupils and 92 teachers in the public schools. There is also a private business school.

Health

Columbia County is proud to have one of 14 County Health Departments in the State of New York. This department took first place both in 1936 and 1937 for the entire Northeastern Division in the Inter Chamber of Commerce Rural Health Conservation Contest. For the past 15 years it has had the highest percentage in New York State of children under 5 immunized against diphtheria.

Hospital

The new Columbia Memorial Hospital, with 169 beds. A thoroughly equipped medical clinic—Rip VanWinkle.

Organizations

This is a City in which virtually every civic and fraternal organization is represented. In fact there are over a hundred of these organizations active in Hudson. The Masonic body, Hudson Lodge No. 7, celebrated its 150th anniversary in 1937. Among the most active of these groups are the Chamber of Commerce, Junior Service League, Red Cross, Boys' Club, Junior Chamber of Commerce, Rotary, Lions, Y. W. C. A., Salvation Army, Boy and Girl Scouts, Elks Club, Masonic bodies, Business and Professional Women's League, American Legion, V. F. W. and Blue Anchor.

Institutions

The New York State Volunteer Firemen's Home, the larger of only two such homes in the world; the New York State Training School for Girls, a progressive and educational institution that is a model throughout the world; a Home for the Aged, and 3 Nursing Homes.

Library

The D. A. R., with over ten thousand volumes.

Recreation

The Chancellor Livingston High School and Athletic Field, completed in 1937 is in an area that is a complete "civic center"—a "civic center" that cities of the largest class might well be proud of—including a baseball diamond, football and soccer field, a quarter-mile running track, five tennis courts, ample playgrounds for smaller children, park areas with drives, walks, etc.

There is 1 modern theatre.

Inns and hotels provide dancing, while nearby are riding academies, and lakes and parks for swimming, fishing and boating—a country club for golf and tennis—hunting, ponds for skating, and ski trails go to make Hudson and its surroundings the sportsmen's haven and the vacationists' paradise.

A drama group (Claverack Players), and the Hendrick Hudson Glee Club, which meets in Hudson, contribute to the cultural activities within the city. Also Columbia Co. Arts and Craft Guild.

Hudson in the War

Hudson sent men and women into the armed forces to every corner of the world. Many achieved honor and distinction for their courage in battle.

Points of Interest

Historical markers show the site of the first City Hall, built in 1786—the Presbyterian Church since 1835; "Parade Hill," now Promenade Hill, land granted in 1795 by the Proprietors of Hudson to the Common Council for a public walk or mall; Central Square, building erected there as a jail, in 1805; subsequently the City Hall, and in 1862 purchased as a newspaper office, the site of the "Hudson Evening Register", home of Maj. Genl. Worth, here Maj. Genl. Wm. Jenkins Worth was born, in 1794, a famous son of Hudson, distinguishing himself in the War of 1812 and in the Mexican War; Franklin Square, now a park, was the site of the first two dwellings erected in what is now Hudson, in 1783.

Short trips from Hudson to the truly romantic County of Columbia, which celebrated its 150th anniversary in 1936, and one will find a country unparalleled for scenery, with prosperous villages and towns, rich in orchards and farming, and rich historically. In Kinderhook one may see "Lindenwald," the home of Martin Van Buren, the eighth President of the United States; the Van Alen home, built in 1736, where lived Katrina Van Tassel, of the legend of Sleepy Hollow; and the House of History, built prior to 1825, now owned by the Columbia County Historical Society. In Claverack is the old court house where Aaron Burr and Alexander Hamilton tried cases. In "Clermont," Livingston Manor, built in 1730 by Robert Livingston, son of the first Lord of Livingston Manor was the birthplace of Chancellor Robert R. Livingston and the scene of important Colonial events.

Here lived, to mention a few: The aforementioned Chancellor Robert R. Livingston, a drafter of the Declaration of Independence; Benjamin Butler, of Stuyvesant, Attorney-General of the United States and Secretary of the Treasury; Nathaniel P. Talmadge, of Chatham, United States Senator and Governor of Wisconsin; Samuel J. Tilden, of Lebanon, Governor of New York; Martin H. Glynn, of Valatie, Governor of New York; Amos Eaton, of Chatham, famed zoologist and first President of R. P. I., Troy; Frederick B. Power, of Hudson, world-renowned chemist.

One of the county's best-known men was Thomas W. Lamont, of J. P. Morgan & Co., who was born in Claverack. Edna St. Vincent Millay adopted the county as her home in Austerlitz. Up to a few years ago, John Cowper Powys, the English essayist, poet and novelist, lived at Harlemville for over 20 years; and today at Harlemville lives Arthur Davison Ficke, also a poet, and former Harvard professor.

AIDS TO PROPER MAILING

Do not use "Township" as part of your address.

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered. Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

Bricks Without Straw

In ancient times, we are told, the Israelites were forced to do their work without the proper materials. They did it—after a fashion—but at an enormous cost in time and labor. Labor was cheap in those days, however, and their task masters had the power to insist upon the full quota being given in spite of limitations.

Now the labor market is high, yet, in many cases history repeats itself. We still often see business trying to get along without the proper tools or with antiquated equipment.

You **can** do business without the telephone; it is possible to get along without a typewriter; you may use a quill pen for your correspondence if you so desire; it is your privilege to be without insurance, or the latest directory. If you wish you may still use a mailing list that was old when grandfather was a boy.

If the results are not entirely satisfactory, it is up to you.

Some firms prate wisely of business efficiency and then lose time and money sending to wrong addresses culled from an out-of-date directory. Rather than spend the few dollars necessary to insure themselves being properly listed under all the headings applicable to their business, they run the risk of letting their competitor get their trade. They save the first cost and waste postage stamps by the gross.

Would you improve on old methods? Then phone or write at once for particulars to

Appreciated By All

The Redmond & Keeler firm offers service of the highest quality from Hudson's finest funeral home. Equipped with the most modern facilities and equipment, our establishment possesses a homelike quality which is appreciated by the family.

Appreciated, too, by all those we serve, is the exceptionally moderate price of Redmond & Keeler service. Even though we provide the finest, Redmond & Keeler service is as reasonably priced as any available.

★ Out of Business ★*

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

"r" — RESIDENT

"h" — HOUSEHOLDER

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r", before an address stands for "Resident". That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and or the years to come.

"Fly-by-night," "fire-sale" and other temporary or "get-rich-quick" concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

Information

in the mass seems like a dull proposition, but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use, however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much. In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

Accurate Information is worth all it costs

IT PERFORMS A PUBLIC SERVICE

Few lines of Business have such a varied clientele as has the City Directory. It serves high and low, rich and poor, with equal impartiality and with profit to all.

It answers the questions What? and Who? which arise in daily Business and fills a position occupied by no other publication under the sun. It is often used from its issue until it falls to pieces and seldom will you find one entirely discarded while its leaves cling together. A publication which is used so universally and whose life is so long, must appeal to every shrewd business man as a most desirable advertising medium.

City Directory Don'ts

DON'T put your Directory in an out-of-the-way place, but keep it where your customers can see and use it without stopping someone to find it.

* * *

DON'T think that a Directory is paying for itself unless you use it, any more than an idle clerk can make you money.

* * *

DON'T look mad when a customer asks to look at your Directory.

* * *

DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow it again, and if all were borrowers, when would the next Directory be published?

* * *

DON'T forget that an up-to-date city must have a Directory; and a merchant that has no Directory is what?

* * *

DON'T forget that a Directory borrower today will forget to return it tomorrow and you will call him what?

* * *

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for.

POLK'S HUDSON

Directory of Householders, Occupants of Office
Buildings and Other Business Places, Including
a Complete Street and Avenue Guide
1959

Copyright, 1959, by R. L. Polk & Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Figures following names denote number of persons living at that number.

The symbol Δ preceding the name denotes that there is a telephone at that address.

(The numerals that appear at right edge of columns ahead of street descriptions and some street intersections are merely for the guidance of the publishers and have no other significance.)

This section includes some listings reading "No Return". In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

The CITY DIRECTORY

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

EVERY STORE

should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer looks for.

The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

Information

in the mass seems like a dull proposition, but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use, however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much. In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Typical Questions

Your City Directory
Will Answer

ABOUT AN INDIVIDUAL

How does he spell his name?
What is his middle initial?
Is he married? What is his wife's name?
Where does he live?
Does he own his home or rent?
Has he a telephone?
Who are his neighbors?
What does he do for a living?
Where does he work?
Is he the "head of the house" or a resident?
Does he own a business? Is he a member or officer?
Who else is in the same business or profession?
Is the woman single, married or a widow?

ABOUT YOUR CITY

What is the city's history?
What are the latest population figures?
What is the latest statistical and general civic information?
What are the leading industries and activities of the city?
What are the names and locations of the schools?
What are the churches and where located?
Who are the pastors of the churches?
What are the locations of the hospitals, homes and asylums?

ABOUT A LOCALITY

How is the quickest way to get there?
Who lives at a given address?
Is there a telephone at the address or nearby?
What is the character of the neighborhood?
Is it a "home-owners" section?
What is the nearest street corner?
What is the nearest store, church, school, garage, shopping center, parking lot, etc.?
Where are the public and office buildings?
If it is a business location, what business?
If an office building, what floors or professional people are in what rooms?

ABOUT A BUSINESS CONCERN

What is the nature of the business?
What is the correct name and address?
Is it a Proprietorship, Partnership or Corporation?
Who are the partners, owners, or officers?
Who else in same or similar lines?

HOW THE CITY DIRECTORY WILL HELP YOU

Some people regard the City Directory as merely a big book that cannot concern or be of any use to them, personally.

If they realized what it contains, and how it would answer many little questions that come up every day, they would use it in their personal as well as business affairs.

Well, now—doesn't it concern you? It has your name, business and address correctly listed, where your friends, looking for you, will find it.

It has this same information about your friends, and anyone else in the city you may be interested to look up.

It has complete information about the business houses of the city, telling who sells what, and where. It has detailed accounts of progressive houses, who realize they will logically be looked for in the "Selling Section."

It tells how all the streets run, giving numbers at corners; the clearest map of the City; Buildings, Government, Societies and a wealth of facts about the City that can only be appreciated by glancing at the Index.

You will be repaid for a little time spent in finding out how to use this book full of "Who and Where" information; repaid in convenience, in accuracy, and in time saved in your everyday affairs. But be sure you use the latest, as an old edition will mislead you.
